Shelley and Reuel,

This is the first draft of the SRF. This is not the final copy and I invite you to make any comments you see fit. This draft requests NDEQ review the attached data files. These are downloads from ICIS where there appear to be missing or incomplete data. Additionally, the formatting on this report is strange due to HQ moving to a different data system. Sorry for the poor formatting but this is the way HQ wants the region to keep the report to import into their system. Feel free to call me when you've had a chance to review. Happy to answer any questions.

Thank you,

Seth Draper
